To Whom It May Concern:

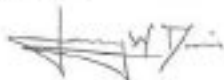

I am pleased to be able to write this letter of recommendation for Lepi Enterprises Inc. Muskingum Valley Health Centers (MVHC) had completed a successful project previously with Lepi Enterprises Inc. and made the decision to directly award the renovation of a small dental clinic in their Coshocton office to them.

MVHC previously operated a four treatment chair dental clinic that is also used as a learning tool by students at the OSU school of Dentistry. The clinic was quite old and contained very outdated equipment. Lepi Enterprises Inc. coordinated in the field with Henry Schein, dental equipment supplier, on all new equipment.

The project had a very tight timeframe and had to be completed in a window of time so as not to reduce the amount of time that the OSU students could use the clinic. Lepi Enterprises Inc. completed the project ahead of schedule and at their proposed budget given to MVHC.

This project was a strenuous project in a fully occupied building and Lepi Enterprises Inc. handled the facility traffic, project budget and schedule with the highest regard. I recommend Lepi Enterprises Inc. without hesitation for any construction project, large or small, and will certainly recommend them to any future clients that have a construction need.

Sincerely,

Jeremy Davis, AIA, NCARB
